

#### **4 Parents' Individual Counseling Service**

By observation in Parents' Briefing Sessions or the referral given by the school teachers and social workers, NCS parents with greater needs<sup>1</sup> can be referred to teachers of Career and Guidance Team for follow up action. In the individual counseling, the teachers will get to know about and address their concerns over their children's further studies and career development.

---

<sup>1</sup> E.g. Newly-arrived NCS students would prefer getting more support and guidance on adapting to new environment, senior secondary curriculum and subject choices, and their future study and career pathways. Direct intervention, communication, support or referral service by senior social workers are also required.
