

1 Multicultural Dream Pursuit Project

Authorised by the Education Bureau (EDB), Caritas Youth and Community Service Project Team has been promoting Multicultural Dream Pursuit Project (the Project) since 2015/16 for three academic years. The Project aims to support schools in Hong Kong for providing life planning education courses to Non-Chinese Speaking (NCS) students, and address the needs and concerns of NCS students relating to languages and cultures. It also serves to provide support to schools, as well as comprehensive life planning education and career guidance to NCS students to develop a practical guidance approach. To achieve the purpose of assisting NCS students with planning their future studies and career pathways, the project team has provided training courses, career visits and work experience activities to 1801 NCS students, as well as the support on career planning to teachers of the participating schools and parents of NCS students’.
