Learn with a Canadian institution

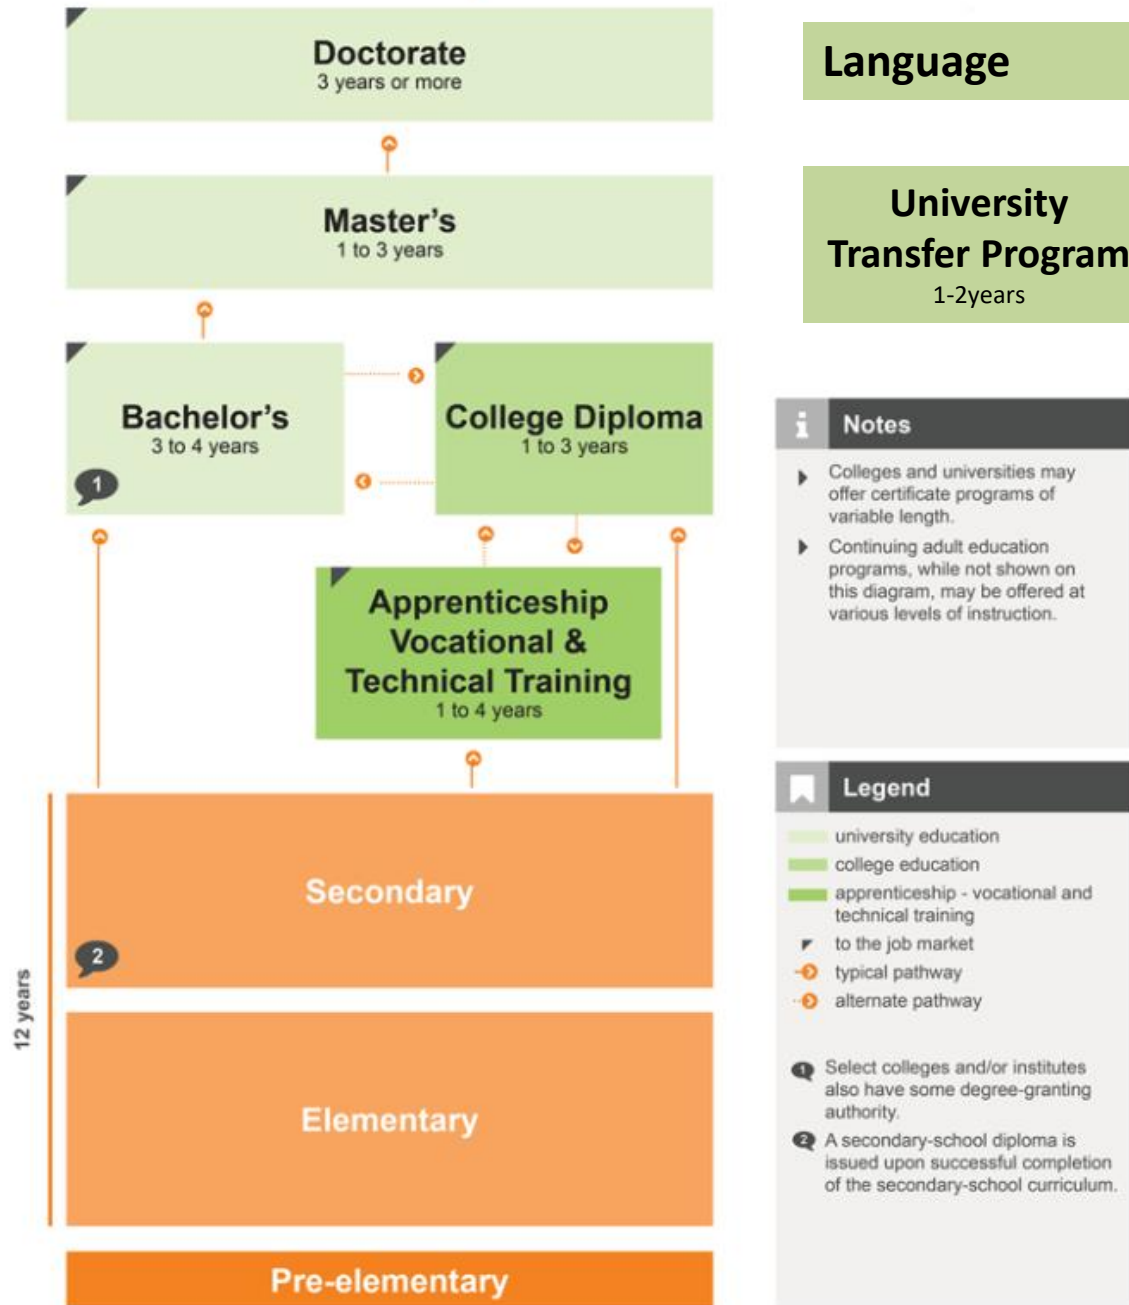

There are many education pathways for your journey

Pathways:

- K-12 to post-secondary
- college to university
- university to postgraduate diploma (college)
- language school to post-secondary
- private school to public school

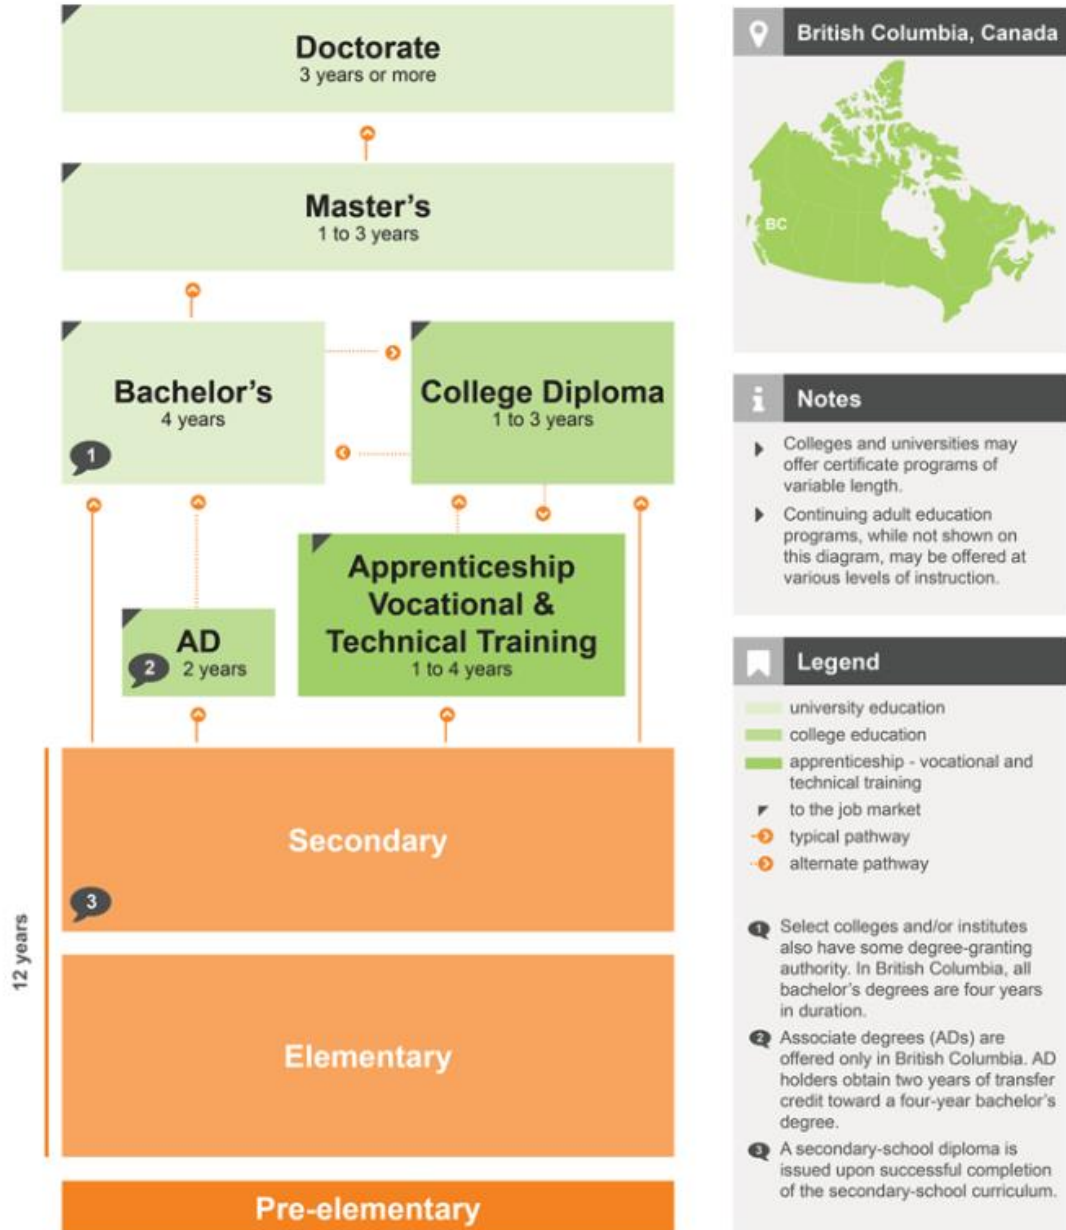

Typical Education System of Canada

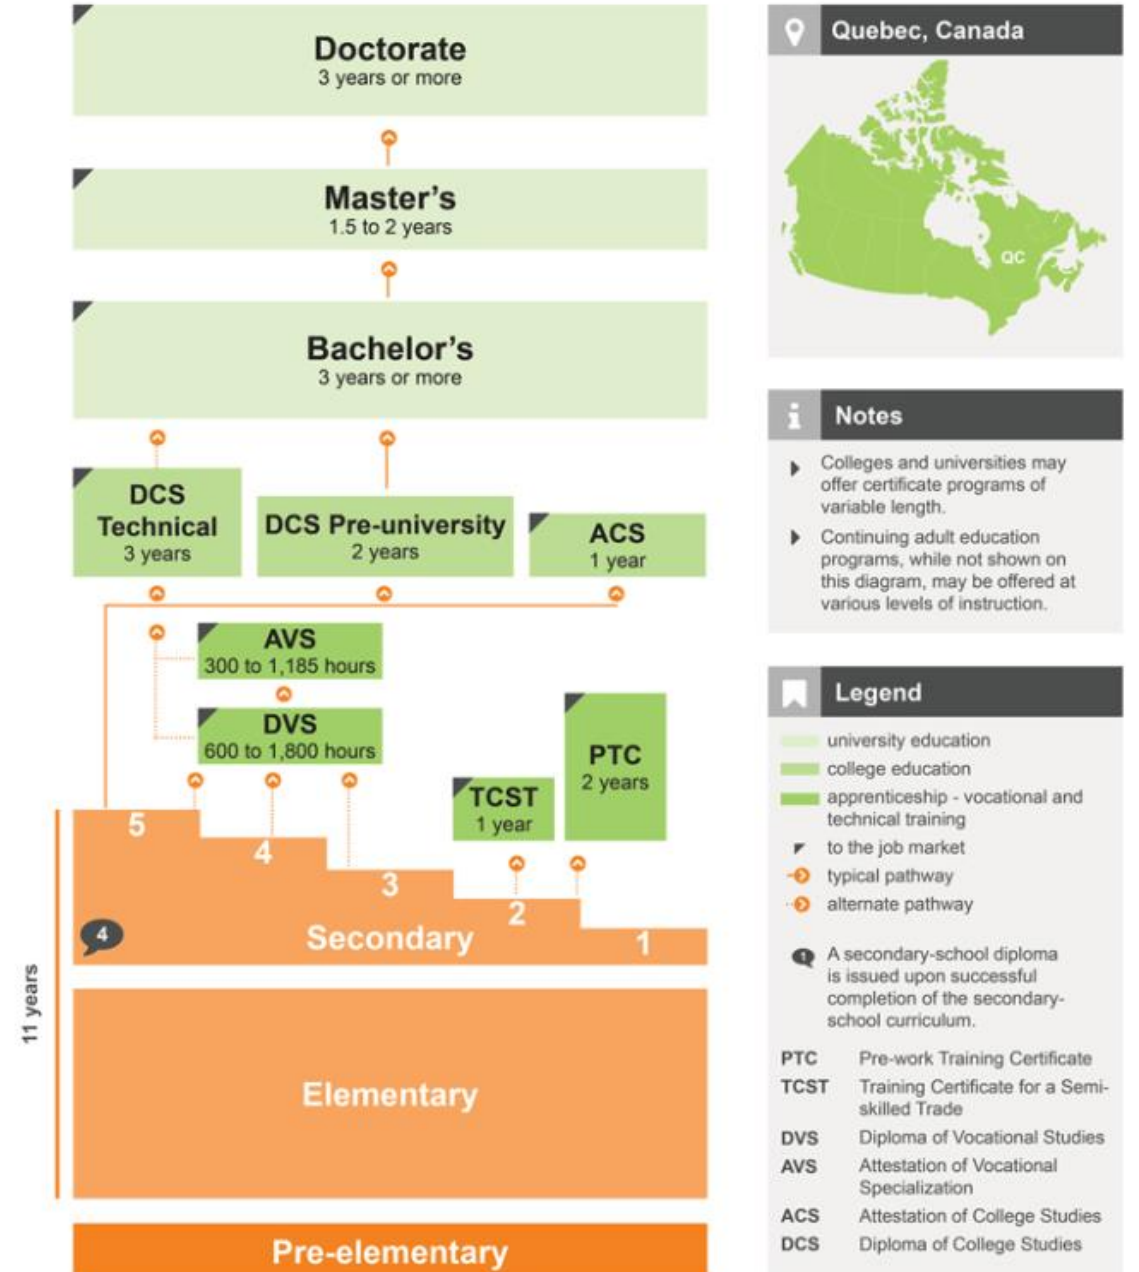

- Some difference in British Columbia and Quebec
- More information: CICIC (The Canadian Information Centre for International Credentials) cicic.ca

The Education System of British Columbia

The Education System of Quebec

Learn English and/or French

Customized programs offer a pathway to higher education.

Types of programs include:

- test preparation for language tests such as: IELTS, CAEL, TOEFL,
- private ESL/FSL classes,
- academic courses,
- business or technical English/French and,
- summer/winter language camps

**Learning English or French
broadens your education and
employment opportunities**

Universities in Canada

Canadian universities deliver globally ranked programs in many disciplines

Four Canadian MBA programs ranked in the top 100

Financial Times 2021

Five Canadian universities ranked among the top 100 for Business and Economics

Times Higher Education 2021 World University Rankings

Four Canadian universities ranked in the top 100 for law

ARWU Global Ranking 2021

Six Canadian universities ranked in the top 100 for agriculture and forestry

QS World University Rankings 2021

STEM: Science, Technology, Engineering & Math

Five Canadian universities ranked in the top 100 for Computer Science.

Five Canadian universities ranked in the Top 100 ARWU Global Rankings in environmental science and engineering.

Four Canadian universities ranked in the top 100 Times Higher Education 2021 World University Rankings for life sciences.

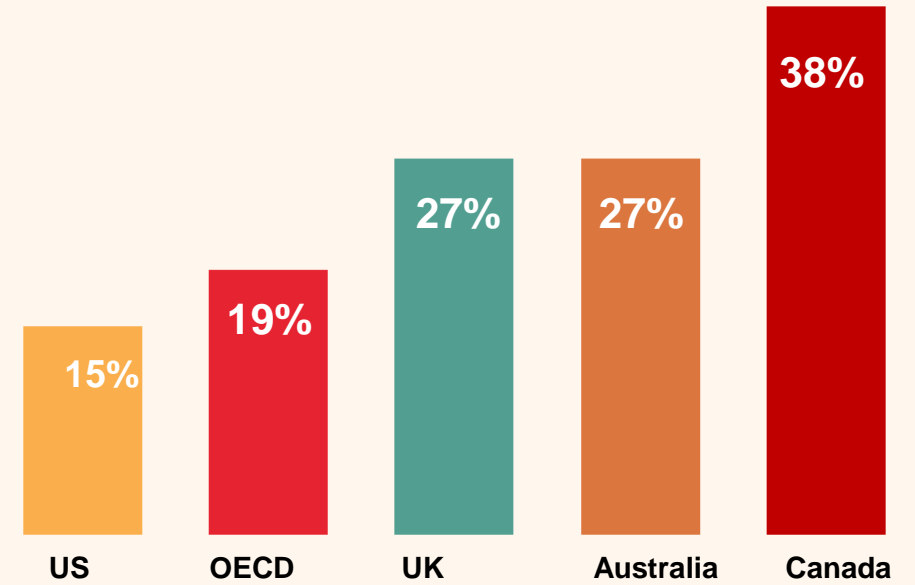

Times Higher Education 2021 World University Rankings

Thriving research culture

Canadian industry invests more in higher education R&D than industry from any other G7 country.

Statistics Canada, 2020

Percent Of Canada's Research Performed By Colleges And Universities

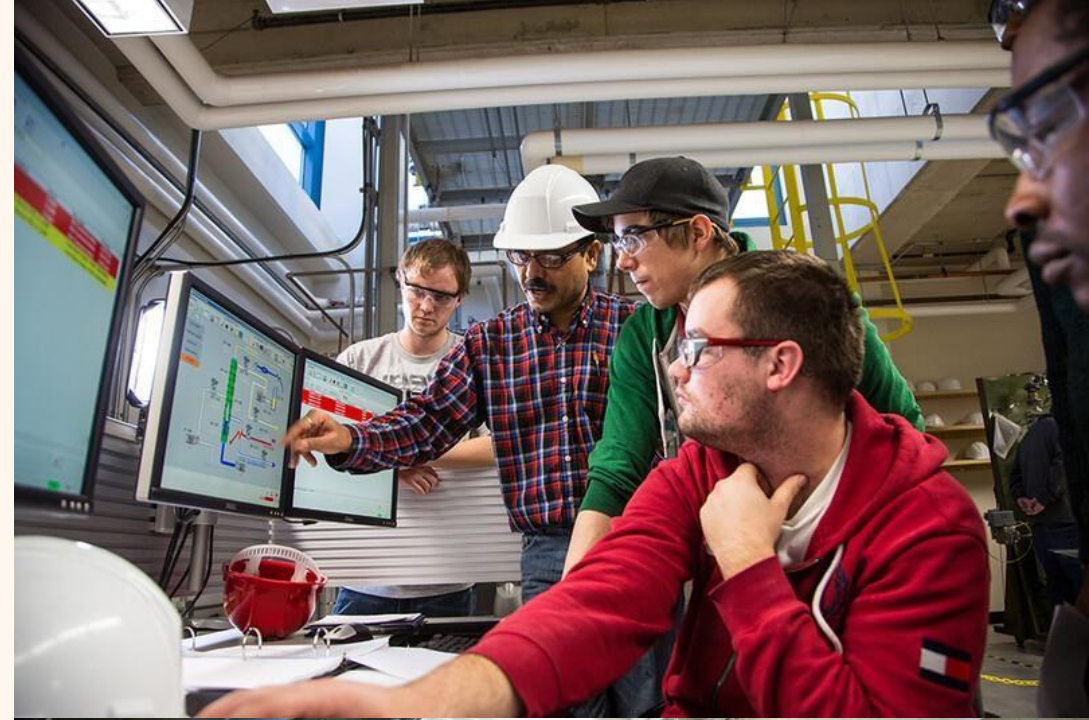

Canadian colleges and universities perform a higher rate of national research than most OECD and G7 countries.

Source: OECD, 2017

Hands-on learning at colleges, institutes, and CEGEPs

Over 10,000 practical and
work-integrated learning programs

Applied research at colleges and institutes

Colleges, institutes and polytechnics undertake applied research in collaboration with small and medium-sized enterprises to create, refine or adapt products, services, technologies, and process.

International students can participate in applied research opportunities and gain relevant practical experience.

Student entrepreneurs have access to research labs, incubators, and entrepreneurship accelerators.

Vocational training

Focus on learning **skills** to meet future employer needs

Over 90 programs, such as:

- Health services
- Manufacturing
- Administration, commerce and computer technology

Benefits of vocational training across Canada:

- Work while you study
- High job placement rate (70-90%)
- Opportunity for family, spouses and children

Québec métiers d'avenir has been commissioned by Quebec's Ministry of Education and Quebec institutions to provide you with administration and immigration support for vocational training.

Training at Quebec vocational centres:

- Is recognized in the Quebec job market
- Is short term (one to two years)
- Is in French or English
- Is practical (80% technical - 20% theoretical)
- Uses state-of-the-art facilities
- Is tuition fee exempt for French nationals
- Is world renowned

Work during and/or after your studies

During your studies

Work on or off campus during your studies, or during regularly scheduled breaks.

Participate in co-op, internship, field placement, or practicum (*work permit required*).

For more information on working while studying [in Canada](http://www.canada.ca/en/immigration-refugees-citizenship/services/study-canada.html):
www.canada.ca/en/immigration-refugees-citizenship/services/study-canada.html

After your studies

Post-Graduate Workers Permit Program (PGWPP)

Canada's Post-Graduation Work Permit Program allows students who have graduated from eligible Canadian [designated learning institutions](#) (DLIs) to obtain work experience.

This opportunity for work experience can help graduates qualify for permanent residency (PR).

For information on eligibility visit the Government of Canada's Immigration, Refugees and Citizenship (IRCC) website: www.cic.gc.ca

Work opportunities by institution
